Incriminating Evidence Has Been Discovered.

El Paso, Oct. 20. - Acting in confunction with Mexican Consul Mallen the El Paso police made a raid on the local junta of the alleged Mexican revolutionists. Pedro Gonzales was the only man arrested here. Simultaneously with the raid on the American side of the line the police of Juarez raided several well known quarters in that city, where the revolutionists were thought to meet, and fifteen men were arrested. Documents were secured in El Paso showing connection of the local organization with those of St. Louis, Douglas, Del Rio, Laredo and Eagle Pass. The raid on the Del Rio organization a few days ago led to the raid here.

#### OVER EIGHT MILLIONS.

Complete Estimates For Next Two Years Have Been Received.

Austin, Oct. 20.—Complete estimates have been received by the comptroller of the needs of the various state departments and institutions for the next two fiscal years ending Aug. 31, 1909. They aggregate \$8,494,436, which is nearly \$500,000 more than was esti-mated, and practically \$1,000,00 more than was appropriated for the two last fiscal years to run the state govern-ment. This increase is most of all ment. This increase is most of all for appropriations asked for permanent improvement for eleemosynary institutions. Estimates received Saturday were: University of Texas, \$170,825 for first and \$167,325 for second year; medical branch of the university, \$84,228 and \$81,883; college of industrial arts, \$190,485 and \$109,-860; public printing, \$32,500 for each year.

year.

The monthly report of Financial Agent Wortham of the state penitentiaries for September were made public. The report shows a balance of \$10.551 on hand since last report; received during September, \$95,293; distributed during September, \$95,293; distributed during September, \$95,363; deving a balance en hand Oct. 1 of \$19,508.

> Details from the local camp of Confederate Veterans escorted the body to St. Paul's Episcopal church. There the casket was placed in the basement of the auditorium amid flowers and floral designs.

About 3 o'clock the casket was taken to the body of the church, which was packed. The funeral services were conducted by Rev. Robert W. Forsyth, rector of the church, assisted by Rev. Dr. William Jones, chaplain general of the Confederate Veterans; Rev. James Power Smith, who was Stonewall Jackson's chaplain; Rabbi Calisch of Beth Ahaba synagogue, Richmond; Rev. Dr. Landon Mason, Rev. Dr. W. V. Tudor and Rev. Dr. N. A. Seagle. The services were of the simplest character. The procession to Hollywood cemetery was made up of the local battalion of the Seventieth regiment of Virginia Volunteers, a company from Petersburg, the Rich-mond Light Infantry Blues and the Richmond Howitzers, local and visiting camps of Confederate Veterans and Sons of Veterans, Daughters of the Confederacy and the Confederate Memorial association. There were representatives in line from most of the states in the Confederacy. At the head rode General Stephen D. Lee of Mississippi in civilian garb, as chief marshal of the parade. Rain fell almost constantly. The whole route of the procession was lined with spectators, who stood under umbrellas.

At the cemetery there was another large gathering. The brief services were conducted by Rev. Forsyth and Rev. Dr. Seagle. The Howitzers fired a salute and two companies of the infantry fired three volleys over the grave. Among the floral offerings was one from President Roosevelt. This, at the cemetery, was placed at the base of the monument over the grave of President Davis.

Taps were sounded by Bugler Cow.

Taps were sounded by Bugler Cowardin of the Richmond Howitzers, who performed a similar service for President Davis and Miss Winnie Davis.

#### BERRYMAN HANGED.

Expressed the Belief That He Was Bound For Heaven.

Shreveport, Oct. 20.-Ike Berryman, a negro, twenty-eight years of age was hanged here Friday for wife murder. The condemned negro walked from his cell to the scaffold, and said he was ready to die, and expressed the belief that he was on the road to beaven.

Berryman fatally shot his wife be cause she told stories on him.

#### STOP GOLD EXPORT.

Thought Increase of Bank Discount Will Cause This Result.

London, Oct. 20 .- After the surprise caused in financial circles by the exceptional increase in the Bank of England's rate of discount a feeling of great relief and confidence was manifested Saturday, as it was believed the 6 per cent rate would prevent further export of gold. Nevertheless the stock market continued to show nervousness, but there was an absence of the feverish excitement which followed the first increased rate.

### FOSTER'S WEATHER BULLETIN.

(Copyrighted 1906, by W. T. Foster.)

Washington, D. C. Oct. 20.-Last bulletin gave forecasts of disturbance to cross continent 20 to 24, warm wave 19 to 23, cool wave 22 to 26. Next disturbance will reach Pacific coast about 26, cross west of Rockies country by close of 17, great central valleys 28 to 30, eastern statas 31. Warm wave will cross west of Rockies about 26, great central valleys 28, eastern states 30. Cool wave will cross west of Rockies about 29, great central valleys 31, eastern states Nov. 2.

This disturbance will belong to a period of low temperatures and while the warm wave will bring temperaturres only a little above normal the cool waves before and after the warm wave will go to quite low degrees, probably resulting in moderate cool waves. Temperatures will go most to extremes along a line from Texas to Maryland with a higher relative average in southern Ohio than elsewhere. Frosts will go into Texas, Ohio, Maryland and along that line 25 to 27.

With this disturbance not much rain may be expected north of the Thio and Arkansas rivers and between the Alleganies and Rockies. Most rain will occur farther south and east. About Oct. 20 a cool wave will be progressing eastward thru the central valleys, followed by a warm wave that will reach meridian 90 about 22.

New readers of my forecasts are sometimes confused by the cool waves, warm waves and storm waves which to them seems to overlap in a mixed confusion. But if the descriptions of these weather waves are read seperately and traced on the map it will be seen that each weather event is kept distinct from the others and that the warm and cool waves alternate, following each other regularly. Every warm wave is followed by a cool wave and every cool wave by a warm wave and that is the way the forecasts run. The warm waves average a little less than six days apart and the cool waves the same

There is a shorter cycle of about three days as an average. That is if it is warmer on the first it will probably be warmer again on the 4th, etc. But as these three-day changes are, as an average, small and unimportant I do not forecast them but forecast only the three-day averages and the six-day storm wave which are from five to seven day apart.

I will soon furnish the newspapers with my weather charts. During August of this year I found the last hidden secret of weather changes. For ten years I have known all the causes of weather changes but the law that governs the change from one cause to another and from one earth-channel to another has baffled me for fifteen years and therefore I could not prevent the occasional knock-out errors that have occurred in my forecasts. Last August I found that law and the basis of it is the well

known fact that a current of electricity develops magnetism at right angels.

At the end of July 1906 I had sent to 35 meteorological scientists, including 8 weather bureau professors my charted forecasts for 8 months and had made an average of about 68 per cent good. I was trying to convince these scientists against their will but I saw that I must make at least 75 per cent good before they concede the value of my discoveries, and this I could not do without finding the law above referred to. I determined to make one last effort. Six months of intese study and experiments brought the victory and I now have that immensely important law.

This discovery necessitates some changes in my astronomical records and as soon as these can be made I not only expect to make the 75 per cent good forecast but I confidently expect to convert all scientists to the cause of planetary meteorology.

The cause of the great earthquakes, hurricanes and tarnadoes this year is found in the equinox of Saturn. Similar events will be found to have occurred at past equinoxes of that planet which occurred 29 1-2 years ago and at equal intervals before. The minor equinox ot that planet occurred this year and the major equinox a little less than 15 years ago and before that at intervals of 29 1-2 years. / Disturbances of the two equinoxes are similar but do not effect the same localities. Unbelievers in the planetary meteorology might do well to investigate these matters.

A Trick of Actors.

Most people know that the memory may be easily confused by learning &

passage in two or three different ways or by having once heard an incorrect.

form of giving it. Working on this

principle, actors are fond of putting

stumbling blocks in one another's way.

A stock joke dear to the hearts of all

players is the regular thing to be in-

of "Richard III." It is in the scene

where the coffin of Henry VI. is borne

across the stage. One of the men who

carry it has been raised from the posi-

tion of supernumerary to his first

speaking part, which consists of a sin-

gle line. Before the performance it is

aside and impress him with the enor-

tence correctly. The victim listens

"Now, most actors," says his tor-

mentor gravely, "make this mistake the first time they play the part: In-

stead of saying, as it is, 'My lord,

stand back and let the coffin pass,' they

give it this way, 'My lord, stand back

And after he has heard the latter ver-

sion, absurd though it is, the chances

are that the poor supernumerary will

give that to the audience on the first

usual for some older actor to take him

Measured by the popularity and market value of his poems when they were written, Thomas Moore has no rival among the poets of Ireland. While engaged at his Irish melodies, in which he was at his best-for they called forth the powers in which he most excelledhe was paid £500 a year by his publishers. Their immense and well merited success induced Longman to give Moore 3,000 guineas-the highest price that had up to that time been paid for a poem-for "Lalla Rookh," the gorgeous eastern romance which dazzled and delighted readers of that day, but is now rarely read. As a lyric poet Moore was, like Burns, one of the best writers we have ever had of "words for music," and, in his case at least, the words are inseparable from the music. Goldsmith, a poet of a different order and with a wholly different experience, got little popularity and less money for his poetry, but in "The Traveller" and "The Deserted Village" he has a better chance of immortality than his compatriot.-London Tit-Bits.

#### A Famous Old Building.

Evensong was held the other day on the site of the ancient oratory of St. Gwithian, one of the many Irish saints who descended upon Cornwall in the fifth and sixth centuries. In a waste of sand near the Godrevy lighthouse, which marks the eastern horn of St. Ives bay, lie what are regarded as the remains of the oldest Christian building in England. The nave bulges with sand to the level of the plain and through a grass covered hillock over the demolished altar protrude a few rough stones. During a stormy night of 1828 the sand shifted and revealed the lines of a structure about fortyeight feet long by twelve feet wide, with a priest's doorway, a small window, traces of stone benches and an altar of masonry now gone as the result of the building being forthwith used as a cowshed.-London Globe.

The song that we hear with our ears is only the song that is sung in our bearts.-Ouida.

THE NEW VISIBLE

### At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines,

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotol bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advan-tage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

#### Here is a Short Description.

THE TYPE HANGER-The hanger has a machine can be purchased with different sizes of carriages, pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanentalignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One is the only decimal tabulator in use on a visible typewriter.

thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb. PERFECT VISIBLE WRITING-The entire

line is visible all the time THE KEY TENSION-The force required on the

part of the operator to print a letter is only 21/2 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK-When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their

kind and their manufacture will be continued as before.

LIVE STOCK AT SAN ANTONIO FAIR

It is fitting, that at San Antonio, the great center of the live-stock breeding and maturing ground of Texas, should be held the greatest live-stock show in the Lone Star State or the south.

Realizing the vast and ever-growing live stock industry of this section and all Texas, the management of the San Antonio International Fair, this year, as well as every other year since its organization, has done everything possi-3:40 p.m. ble to promote and encourage the live-stock industry. The Association, this year, has been compelled to build more pen and stall room for exhibitors of horses, cattle, swine, sheep and goats. Already thousands of dollars have been expended for new buildings this year in the live-stock department.

We have not the space in this article to give the names of exhibitors and what they will show at at this year's Fair but it is sufficient to say that this year's livestock exhibit will aggregate fully twenty-five per cent more animals in all classes than at any other year in the history of the Association. This crowing feature of the San Antonio Fair this year should be sufficient in itself to bring to Alamo City, thousands of visitors. This year's live-stock show will not only be the largest ever held in the State in the number of animals shown but the quality will be there as well. Dates Oct. 31 to Nov. 11.

Miss Hattie Lou Hudson, sponsor of Company "C," A. and M. corps of cadets, Capt. Potts commanding, entertainthe officers of the company and several young lady friends Friday evening at the home of her parents, Judge and Mrs. B. Hudson. The wierd but pleasing fancies of this legendary festival of spirits were woven into the charming evening in which there was not a dull moment. Punch was served and a salad course followed the amusements. Present were Misses Hattie Lou Hudson, Cora Garth, Gussie Buchanan, Louise Harris, Ruby and Vivian James, Alberta Adams, Allie Conway, Maggie McDougald, Bessie Gibson; Capt. A. T. Potts, Lieutenants Hensel, Maxwell, Cuny, Graham; Sergeants Wortham, Cutter, Buchanan, Miller, Epstein.

Miss Jennie Howell was hostess to the Embroidery Club on Tuesday afterneon and was assisted in entertaing her guests by her cousin and guest, Miss Fannie Howell of Dallas. Needle work and social chat made the afternoon one of unalloyed pleasure, save for the knowledge rates by the week. Near (south that it was the last meeting of the club ing marriage and removal from Bryan were recently announced.

The Bachelorettes had a delightful meeting with Miss Kate Wilcox, one of the new members of the club, at the pretty new home of her mother, Mrs. Kate Wil. cox, yesterday afternoon.

The second lesson of the study of Julius Caesar occupied the attention of the Mutual improvement Club for two hours Wednesday afternoon. The attendance this session is unusully good, and is taken as evidence that the members are enjoying the study of Shakespeare's Tragedy of the Idealist.

Mrs. Tyler Haswell was elected treasurer to fill the vacancy caused by the resignation of Mrs. South.

The club had the pleasure of having as guest Mr. J. D. Willis, who kindly contributed an excellent paper on 'Shakespeare's Julius Caesar and History's Julius Caesar." Mr. Willis evidently knew the shortest route to the heart of every member of the club. The paper showed that the writer was a lover of the great bard, and that he had given the subject careful thought. The club offered a vote of thanks to Mr. Willis.

Discussion on the Panama canal closed the program for the afternoon,

Unnecessary Interference With As

loan Fishing Vessels Will Coase. Washington, Oct. 20.—The state de artment has been informed that the Mexican government has given instructions to the gunboat and revenue cutter commanders which it employed to break up fishing by American smacks in territorial waters of Mexico to refrain from any unnecessary interference with vessels outside the three-mile limit and to be as lenient as possible in other respects. results from the protest of the state department against the action of the commander of a Mexican gunboat in stopping and searching an American vessel on the high seas. The Mexican government contends that a revenue content has a right to stop and evenue. cutter has a right to stop and examine foreign vessels approaching territo-rial lines, with the apparent intent to cross, while the state department holds that while this contention is admissible as applied to trading vessels, a fishing smack is not subject to these revenue laws. There will be some fur-ther exchanges before this point is set-

Another matter at issue is the as sumption by the Mexican government of the fact that a fishing smack is in the neighborhood of the boundary line with her nets and fishing gear on deck is proof that she is about to violate the law by fishing within territorial waters. Testimony presented to the state department by Gulf of Mexico fishermen is that it is common prac-tice of skippers to begin overhauling their fishing gear soon after they leave

Prospects are said to be favorable for an early and satisfactory adjust-ment of the fishing dispute.
